

CHALLENGE technology

Quick Scan BOD Analyzer

- Quick Toxicity Screening
- True Respirometric Testing
- Fast, Easy Oxygen Demand Analyzing
- BODst

The Quick Scan BOD Analyzer is designed to meet the needs of treatment plant operators desiring fast, easy screening of wastewater samples. This digital technology, combined with Challenge Technology's years of experience in respirometry, have come together to form a low cost, extremely accurate analyzer that is simple to set up and easy to use.

This system measures oxygen uptake, BODst and SOUR, and gas production in anaerobic reactions. All of the data is stored via the **included laptop computer** with pre-loaded monitoring and graphing software. Also included is the Challenge Technology 4-position stirring unit for reliable, high-speed stirring.
